EDUCATION

University of Michigan

3.92 GPA

Urban Technology, B.S. & User Experience Design, B.S.

Graduating May 2027

- Interdisciplinary program emphasizing UX design, usability, and human-centered research to create meaningful digital and physical experiences through full cycle product development (research, prototyping, testing, iteration)
- **Campus Involvement:** Alpha Theta Delta (VP External Affairs, Recruitment Chair), Edward Ginsberg Center (Student Advisory Board Member), URB Consulting Senior Design Consultant, Planet Blue Ambassador
- **Coursework:** Human-Computer Interaction, Interaction Design, Data-Informed Design, Auto UX, Urban Informatics

PROFESSIONAL EXPERIENCE

Product Management Intern

Woonsocket, RI

CVS Health (Caremark)

May 2026 - August 2026

- Led delivery of 2 product capabilities from requirements through implementation for an internal PBM rebate reporting platform, collaborating with UX, engineering, and business teams to improve reporting workflows and data visibility
- Authored 30+ user stories and product requirements across Agile development cycles, leading end-to-end user flows and refining data selection logic to improve reporting granularity, usability, and implementation readiness
- Developed a pharmacist support solution as part of a team of 8 interns and won a 250+ participant innovation challenge, conducting product research, validating user needs, and presenting recommendations to senior leadership

Product Design Intern

Ann Arbor, MI

University of Michigan Global Engagement Team

Aug 2025 - Present

- Conducted GA4 analysis of 100k+ annual user interactions to uncover navigation drop-offs and content gaps; delivered an insights report that guided UX recommendations and prioritized improvements for global academic audiences
- Partnered with four cross-functional teams spanning design, content, and development to improve information architecture, accessibility, content strategy, navigation, and reduce user friction for a global university website

Front End Development Intern

Ann Arbor, MI

Linkage Community (*Nonprofit that bonds formerly incarcerated individuals with art*)

Nov 2024 - Aug 2025

- Redesigned organization's WordPress website and brand identity to enhance user engagement, attract donors, and amplify over 40 member voices through a more accessible and impactful digital presence in the community
- Built over 20 artist webpages utilizing HTML and CSS for formerly incarcerated individuals in order to break stereotypes surrounding their experiences and support them through community building surrounding art

PROJECTS

Trinity Health (*Community Partner Portal & Asset Map*)

2026 - Present

- Working with Trinity Health Michigan to design a community partner portal and asset map that improves access to Medicaid resources, using stakeholder research to inform workflows, information architecture, and accessibility

Steelcase (*Future Learning Environment*)

2026 - Present

- Collaborating with Steelcase to explore how system-level spatial AI could reshape learning and workplace environments by 2035, researching human-AI interaction, collaboration, privacy, and spatial adaptability

PurplePad (*Student Housing Platform*)

2026

- Directed product discovery for a two-sided housing platform, translating focus group and survey research into requirements and end-to-end student and landlord experiences across search, subleasing, listings, and analytics

SKILLS + ADDITIONAL

- **Product + Design Tools:** Figma, FigJam, Framer, Adobe Creative Suite, Miro, Jira, Rally, Google Analytics, WordPress
- **Programming Skills:** Python (Pandas, NumPy, Matplotlib), SQL, R (sf, tmap, Leaflet), HTML, CSS, JavaScript, Git
